Overview:

Light up your wireless gaming with the K57 RGB Wireless Gaming Keyboard, featuring sub-1ms SLIPSTREAM WIRELESS and brilliant per-key RGB backlighting from CAPELLIX LEDs.

Features:

LIGHT IT UP

Light it up anywhere with CAPELLIX LEDs, shining brighter and consuming far less power than conventional RGB LEDs – enabling wireless play with full RGB lighting for up to 35 hours (and up to 175 hours without lighting). Choose from 18 different pre-set lighting effects in wireless mode or experience total control of each individually lit key while in wired mode.

THREE MODES OF CONNECTION

01 SLIPSTREAM CORSAIR WIRELESS TECHNOLOG

02 BLUETOOTH

03 USB WIRED
