CABLE: Razer™ Speedflex Cable

TILT SCROLL WHEEL: No

SIZES: Length x Grip Width x Height: 4.99" x 2.27" x 1.49", 126.73 mm x 57.6 mm x 37.81 mm

WEIGHT: 0.16 lbs / 74 g

DOCK COMPATIBILITY: Yes

OVERVIEW:

NOT ALL WIRELESS MICE ARE MADE EQUAL: Forget about average and claim the unfair advantage with the Razer Viper Ultimate—a wireless gaming mouse built to win. Designed to be a true extension of a gamer, this deadly predator comes with our most cutting-edge technology, and is ready to sink its fangs into the competition.

RAZER HYPERSPEED WIRELESS: 25% faster than any other wireless technology available, you won't even realize that you're gaming with a wireless mouse due to its high-speed transmission, lowest click latency, and seamless frequency switching in the noisiest, data-saturated environments.

RAZER FOCUS+ OPTICAL SENSOR: Our new, improved sensor has an industry-leading 20,000 DPI with 99.6% resolution accuracy, ensuring that even the finest movement from this wireless mouse is tracked with consistency. Equipped with intelligent functions, the sensor becomes even more accurate, allowing for an acute level of precision for game-winning headshots.

RAZER™ OPTICAL MOUSE SWITCH: Utilizing an infrared light beam to register every click, the switches in this wireless mouse actuate with an industry-leading response time of 0.2 milliseconds. Because it no longer requires traditional physical contact, this form of actuation removes the need for debounce delay and never triggers unintended clicks, giving you closer control and flawless execution.

74G LIGHTWEIGHT DESIGN: Enjoy faster and smoother control with the lightest wireless gaming mouse in the market. Weighing just 74g, it achieves its weight without compromising on the build strength of its ambidextrous form factor.

FEATURES:

70 HOURS OF BATTERY LIFE: Improved wireless power efficiency keeps it running at peak performance for up to 70 continuous hours—charge it just once a week to power 10 hours of daily gameplay.

5 ON-BOARD MEMORY PROFILES: Bring your settings anywhere and be match-ready in no time. Activate up to 5 profile configurations from its onboard memory or custom settings via cloud storage.

8 PROGRAMMABLE BUTTONS: Fully configurable via Razer Synapse 3, the 8 programmable buttons let you access macros and secondary functions so you can execute extended moves with ease.

RAZER MOUSE DOCK CHROMA: Add more character to your battlestation with an efficient charging dock that can seamlessly integrate with other Razer Chroma-enabled devices.

100% PTFE MOUSE FEET: Enjoy slick mouse movement across any surface with mouse feet made from the purest, highest grade of PTFE—a material used to coat non-stick pans.
