**ERGONOMICS UNLEASHED:** With over 10 million Razer DeathAdders sold, the most successful gaming mouse of all time sheds its cord for comfort without limits. All hail the Razer DeathAdder V2 Pro—a wireless ergonomic gaming mouse that ushers in a new reign of dominance through total freedom of movement and control.

**RAZER™ HYPERSPEED WIRELESS:** 25% faster than any other wireless technology available, you won't even realize that you're using a wireless gaming mouse due to its high-speed transmission, lowest click latency, and seamless frequency switching in the noisiest, data-saturated environments.

**RAZER™ FOCUS+ OPTICAL SENSOR:** Our new, improved sensor has an industry-leading 20,000 DPI with 99.6% resolution accuracy, ensuring that even the finest movement from this wireless ergonomic gaming mouse is tracked with consistency. Equipped with intelligent functions, the sensor becomes even more accurate, allowing for an acute level of precision for game-winning headshots.

**2ND GEN RAZER™ OPTICAL MOUSE SWITCH:** Improved with greater tactile feedback, every click now feels and sounds more satisfying—actuating via an infrared light beam for an industry-leading response time of 0.2ms. Because this form of actuation no longer requires traditional physical contact, it removes the need for debounce delay and never triggers unintended clicks, giving you closer control and flawless execution.

**UP TO 120 HOURS OF BATTERY LIFE:** This wireless ergonomic gaming mouse offers 3 modes of connection to adapt to your needs: up to 120 hours via Bluetooth for maximum usage, up to 70 hours via Razer™ HyperSpeed Wireless for low-latency gaming, or plugged in via its Razer™ Speedflex cable so you can continue to game even as it's charging.

**FINE-TUNED SCROLL WHEEL TACTILITY:** Offering satisfying feedback with a distinct, notched feel, the scroll wheel also has a lower scroll resistance that feels easier and lighter to use—so cycling through weapons and executing bunny hops becomes truly second nature.

**ADVANCED ON-BOARD MEMORY:** Be ready to compete anywhere with up to 5 stored profiles that give you access to optimal keybind layouts, macros and double the inputs via the Razer Hypershift function.

**CHARGE-COMPATIBLE WITH RAZER MOUSE DOCK CHROMA:** The Razer DeathAdder V2 Pro works with the same mouse dock used to charge the Razer Viper Ultimate or Razer Basilisk Ultimate—the perfect upgrade to your RGB battlestation that can be purchased separately.

**INJECTION-MOLDED RUBBER SIDE GRIPS:** For more secure swipes, the mouse has rubber grips that fully cover its left and right side—molded as part of the shell to ensure they never peel off.

**100% PTFE MOUSE FEET:** Enjoy slick mouse movement across any surface with mouse feet made from the purest, highest grade of PTFE
