LIGHT UP YOUR BATTLESTATION

Customize with six onboard lighting effects, assign a color to each lighting zone, or program your own vibrant lighting effects across five RGB lighting zones with CORSAIR iCUE software.

RESIST SPILLS: IP42 protection guards your keyboard against spill accidents and dust buildup so your gameplay never stops.

MACRO CONTROL: Gain an in-game advantage with six dedicated macro keys - record onboard, program more complex macros through iCUE, or assign streaming commands through Elgato Stream Deck software.
