The CORSAIR K65 RGB MINI 60% Mechanical Gaming Keyboard combines top-level performance with portability, featuring AXON hyper-processing technology, CHERRY MX SPEED mechanical keyswitches, and exceptional customizability in a compact design.

Features:

FORM MEETS FUNCTION

The K65 RGB MINI delivers big features compressed into a 60% form-factor, easily fitting into any setup for comfortable gaming

PERSONALIZE YOUR PLAY

Show off your style with dynamic per-key RGB backlighting and an optional included radiant spacebar, along with a standard bottom row layout so you can swap in your own custom keycap sets.

EXPANSIVE SHORTCUTS

Access a robust set of side-printed onboard features, including over 30 unique controls for lighting, profiles, macros, media, volume, and mouse cursor.

Onboard macro recording and two function layers allow you to record macros on-the-fly to (FN + any key) or (FN + FN2 + any key) for convenient access to your advanced commands without sacrificing any standard keys.

CORSAIR's most advanced gaming keyboard experience delivers inputs up to 4x faster with native 8,000Hz hyper-polling and 4,000Hz key scanning, while simultaneously driving up to 20-layer lighting effects.

LINEAR & FAST

CHERRY MX SPEED Silver keyswitches provide lighting-fast response times with an extremely short 1.2mm actuation distance, perfect for fast-paced competitive gameplay.

UNITE YOUR SETUP

CORSAIR iCUE software brings your entire setup together, creating a fully immersive ecosystem with intuitive control.
